

This form is to be attached to your tax return. The “qualifying services” refer to the acceptance of construction and demolition material by the authorised person at a fee not exceeding €5.50 per tonne.

Any amount of tax credit shall not exceed the tax chargeable on the income derived from the provision of the qualifying services. To determine this amount you need to divide the gross fees for qualifying services by your total chargeable income and multiply the result by the total tax charged for the year.
